

EDUCATION

Bachelor of Technology (B.Tech), Information Technology

MITS: Madhav Institute Of Technology &

Science 2018 - 2022

CGPA: 8.18/10

Senior Secondary (XII), Science

Kendriya

Vidyalaya (CBSE
board)

Year of completion: 2017

Percentage: 78.40%

Secondary (X)

Wilson Public

School (MP
BOARD board)

Year of completion: 2015

Percentage: 82.00%

TRAININGS

Top performer (Ethical Hacking Training)

Verified and added by [Internshala](#)
[Trainings](#)

Ethical Hacking

Internshala Trainings,

Online May 2020 -

Present

Training is on web application security having various details about SQL injection , CSRF attacks , IDOR vulnerabilities and many more .

C++ Data Structure And Algorithm

Cscope Academy,

Gwalior Nov 2019 - Mar

2020

In this training i learnt about the competitive programming and various algorithm in Design analysis and algorithm . Topics like Dynamic Programming , Greedy Algorithms and graph based algorithm .I implemented them in C++.

Python Training

Numeric Infosystem Private Limited (Sandeep Sappal Gwalior),

Gwalior Feb 2019 - Apr 2019

i did this training for 3 months when i was in 1st year. And currently doing programing with it for solving interview problems.

PROJECTS

Bank Management System (C++)

Sep 2019 - Oct 2019

This c++ mini project have the ability to add user through registration , performing transactions from one account to other account and authentication system too.

Jquery Calculator

May 2019 - May 2019

[https:// github.com/Shivansh1980/Jquery-Calculator.git](https://github.com/Shivansh1980/Jquery-Calculator.git)

Jquery Calculator

SellingCart (Ecommerce Website) Python Django Framework , Bootstrap Basics , HTML ,CSS and Jquery

May 2020 - Present

[https:// github.com/Shivansh1980/SellingCart.git](https://github.com/Shivansh1980/SellingCart.git)

The website have authentication features , when authentication is done user can buy products available on the site . Website have uploading books features and those books becomes accessible for everyone . I have added Add to Cart features too in it.

iCLOCK (An Android App)

Oct 2020 - Present

[https:// github.com/Shivansh1980/iCLOCK](https://github.com/Shivansh1980/iCLOCK)

This is an android app for colleges in which all the events going on colleges are available. e.g. suppose the club in a college want to start an event then they will do so in app which will visible to all students. It have many other features too.

ADDITIONAL DETAILS

I have started doing projects from 1st year 2nd sem when i was learning python as well as c++.When i came in 2nd year, to revise python I learnt Django and developed an Ecommerce site and other details i mentioned in my details section.

And since i was doing competitive programming with c++ from 1st year so i marked it to the intermediate level.
